# 1907 Annual Seed Catalogue

U.S. LIBRARY,  
Department of Agriculture,  
Washington, D. C.

F. C. GRAVES, The Reliable Seedman

FROM  
**F. C. GRAVES SEED CO.**  
DES MOINES, IOWA

F. C. GRAVES.

## A Prosperous New Year to Friends and Customers.

We again take great pleasure in mailing you our 1907 seed catalogue, knowing well your preference of doing business direct with the grower, who can supply you with better seeds at much lower prices than can be quoted by other firms, thereby saving you the retailer's profit. Yours truly,

**F. C. Graves Seed Co.**

The prices made in this list cannot be beat by any other seed house and considering the quality of our goods it will be money in your pocket to place your seed order with us. *A trial order will make you a sure customer*, assuring you that any order or inquiry received will have prompt and careful attention.

Our railroad facilities are such that we can handle orders with a promptness that is bound to satisfy our customers.

**TERMS:** We pay postage on packages, ounces and one-fourth pounds. Pounds and quarts if to go at our expense, add to the rate of 10c per pound and 15c per quart to pay postage. Cash must accompany order when sent through the mail. Remittance may be made by stamps, P. O. Order, Draft, Express Order or Registered Letter.

*Special terms to Market Gardeners.*

We ask you to kindly look the following price list over carefully. We are sure you will find something that will be of interest to you.

## Get Well! Others Have! You Can!

I treat chronic cases right and for rates that are right and just. I want to help you so that you can help me. I do not misrepresent conditions I find present. **If I think I cannot help you I say so.** I treat each case according to its needs, not always the right way. I use any and every means modern or ancient it matters not to me so it cures patients. Electricity, dry heat, massage, the X-Ray, compound air, these are a few of the means I use. I am a **physician** and use **drugs** or operative measures whenever they are needed. I do not expect you to get well on moonshine furnished by yourself and then pay me for it. But my medicines are modern and pleasant in action. Give my attention to diseases of the nervous system, Catarrh and all chronic troubles.

**Examination Free!** Treatment by the month within the reach of any one who needs it. Accommodations for out of town patients furnished at my home or in the neighborhood at reasonable rates. Office open evenings and Sunday forenoons. Free X-Ray demonstrations evenings. Write today for free booklet if you cannot call.

**W. G. MORGAN, M. D.,**

623 Walnut St. (Cor. 7th.) The corner east of Younker's. Mutual Telephone at office and residence.

## IOWA SUCCESS

## Iowa grown Seed Corn

Tested and warranted 98 per cent.

**IOWA SUCCESS** is one of Iowa's greatest introductions as a corn. Ears large having from 18 to 20 rows on the cob; 62 pounds of corn and 8 pounds of cobs, 2 and 3 ears on stalk; 1.311 bushels of corn grown on ten acres in 1906 in Story county in the Indian Creek bottom. Try it this year. Price, packet 2c, quart 25c, peck 75c, half bushel \$1.25, bushel \$2.00. Sacks free.

## A FEW POINTERS ON SEED CORN

There is no crop on which the farmer depends more for results than the corn crop. Care should be taken to have all conditions favorable. Above all you must have good seed. No matter how good the land or how favorable the weather, if the seed is poor, it is time and money wasted.

The varieties listed here are especially adapted to Iowa, Nebraska, Missouri and Illinois. Of course, certain ones can be grown in certain parts of the corn belt to better advantage. Information in this regard will be cheerfully given.

Our stock of seed corn this year is very choice. It is all carefully selected and tested, showing high germinating qualities. If you desire to learn further the merits of our seed corn, we should be glad to hear from you, assuring you that all inquiries will receive careful and prompt attention.

Iowa Silver Mine.

## IOWA SILVER MINE

One of the greatest white corn known to exist; 215 bushels has been grown per acre. You may doubt this statement, but Mr. Claus Jochinson, a well-to-do German farmer of Scott county, Iowa, grew it. Ears large, deep grain, color very bright, pearl white. This corn will produce a crop where others fail. You won't miss it by planting a few acres this season. Price, packet 5c, pound 25c, three pounds 50c, by mail; by freight peck, 50c, bushel, \$1.75, five bushels at \$1.60 per bushel.

## PRIDE OF THE NORTH

This variety originated with A. L. Goddard, of Kossuth county, Iowa, about twenty years ago and sprang at once into prominence as the earliest of all Yellow Dent corn. Price by mail 5c, pound 20c, three pounds 40c, half bushel 65c, bushel at \$1.10, three to five bushels at \$1.00.

## For Twenty Years a Specialist

I have successfully treated all forms of Chronic Diseases: such as Kidney, Bladder, Heart Blood and Womanly diseases; Piles, Dyspepsia, Deafness, Rheumatism, Constipation, Varicocele, Hydrocele and Rupture.

If you are tired of paying out money and receiving no benefit, write to me for my symptom blank. I will then tell you, free of charge, what I think can be done for you and will give you my honest opinion, backed up by a large experience, as to what you should do. You will not be under any obligation, whatever, to treat with me unless you so wish and I will tell you just what it will cost you. If you will tell me your most prominent symptoms I will send you a trial treatment.

**F. M. McCanon, M. D., Specialist,**

**707 Iowa Loan and Trust Building.**

**Des Moines, Iowa.**

**Extracts From a Few Letters on File. Names Furnished to Those Interested.**

Please accept my sincere thanks for the restoration of my wife from a broken down woman to one of almost perfect health. —E. A.

You do not know how much better I am feeling. I believe you did not miss it when you said I would some day be one of the happiest girls living. —Miss A. G.

I think your medicine has done me a world of good. —Mrs. C. H. W.

Not a day passes but that I am grateful for what you have done for me. —Miss Nellie B.

I think I have better health now than I ever did. I am feeling so well and strong and will always remember what you have done for me. —Mrs. E. H. A.

I am feeling real good. Your medicine has helped me so much and you will find enclosed a money order for another month's treatment. —Mrs. Chas. W.

I am feeling so much better, I can walk and get about as well as ever, so far as rheumatism is concerned. Please send me another month's supply of remedies. —Mrs. J. R. F.

## IOWA GOLD MINE

**Best Variety of Yellow Corn in the World.**

Every one who has tried it is enthusiastic in the praise of this splendid new variety, which was introduced in 1892. Iowa is not called a gold mine state, but in this grand new variety farmers of this country will find a veritable mine of wealth.

It has received the most cordial endorsement as the best and most profitable variety ever grown. Price, packet 5c, one pound 25c, three pounds 60c by mail postpaid. By freight, peck 50c, bushel \$1.50, in 8 and 10 bushel lots at \$1.40 per bu.

## 200 Egg Incubator \$12.80

## THE WOODEN HEN

At \$12.80 the Wooden Hen is the best 200 Egg Incubator on the market—the remarkably low price being made possible only by the immense production forced by the constantly increasing sales of this perfect hatcher. Substantially built and thoroughly finished throughout, it solves every problem of ventilation, moisture and heat—practically runs itself and requires but five minutes' time daily while in operation. The Wooden Hen is not only the best of incubators and the most economical to operate, but it also hatches the greatest proportion of fertile eggs. Send for free catalogue, illustrated in colors, containing full information regarding Incubators and Poultry Appliances.

GEO. H. STAHL, QUINCY, ILL.

## Grass Seeds

are the largest dealers in this line in Iowa. Our new electric cleaning machinery has been so perfected that we claim our grades average better than those of most other markets and believe that they cannot fail to please the most particular. Prices are changing constantly and we name here the price we are selling at on day this list goes to the printer (January 1st). Don't fail to write for our prices before buying.

If you are in a hurry for seed you can order it and we will send seed to full value of money received on day that your order comes in. Please remember that our quotations are for our best grades of re-cleaned seed, and we know that the price is as low as such grades can be bought for anywhere. At the pound rate we prepay postage. Grain bags to hold seed 15 cents each extra.

## SEED OATS

### Irish Victor.

Introduced by the Iowa Seed Company. A grand variety and the most productive variety ever brought out. It is probably known to but few farmers that almost all the new varieties of oats originated either in Scotland, Northern Ireland, or New Zealand. You had better put out a field of them this year. By mail, packet, 5c, pound 20c, three pounds 50c; by freight, peck 40c, bushel 95c, five bushels 80c, ten bushels at 65c, thirty bushels at 60c. Sacks free.

### Early Champion Oats.

This grand new variety, which was introduced by us in 1897, has given excellent satisfaction to our customers. Try a few bushels this season; packet 5c, pound 15c, three pounds 40c by mail; by freight, peck

35c, half bushel 60c, bushel 90c, two bushels or more at 80c, ten bushels or more at 70c. Sacks free.

### Lincoln Oats.

Seven prizes awarded in 1900 to farmers who grew the most bushels of oats sown. First prize going to a man who grew 174 bushels from one bushel of seed sown; six others averages were 116 bushels from one sown. By freight, sacks free, peck 35c, bushels 90c, two bushels or more at 80c, ten bushels or more at 70c, thirty bushels at 65c.

### Silver Mine Oats.

A very popular variety in some sections and said to yield immense crops. Our seed is pure and choice. Peck 30c, bushel 80c, two bushels or more at 70c, five bushels or more at 65c, ten bushels or more at 60c, thirty bushels at 50c.

## Barred Rocks

for 25 years exclusively

If you want choice exhibition or breeding birds I have them

300 to select from      Prize winners

I have eggs at \$2.50 per 15 eggs  
or 30 eggs for \$4.50.

My flock combines the best strains in the country and my birds have carried away their share of the prizes from every poultry show I attended. Large birds, April hatched. Score cards by Judge Shaner after December 24, and a reliable score card will be furnished with each bird. Prices reasonable, according to quality and score.

**MRS. LIZZIE HARNISH,**  
Mt. Carroll, Ill.

# Rheumatism Cured

I hear you say, the old story "Quack, Quack," but  
**Stop! Look! Listen!**

For twenty-five years was owner and manager of the Ryan Sanitarium at Colfax, Iowa, where I successfully treated hundreds of rheumatism patients, as well as stomach, liver, kidneys and bladder diseases. My time being too short to allow my rheumatic specific and other remedies found out by mere accident, I therefore use printer's ink for one time only. I know anyone can advertise. Anyone can get testimonials. But forty-five years of experience with my unlimited advantages and experience will most likely cause the most skeptical to think for one or two minutes. This is my first and last ad. If interested send me \$2.00 for trial bottle. If not satisfied tell your friends if my statement is true or false. Tell everybody.

**J. R. RYAN, M. D.,**

Good Block, Des Moines, Iowa.

## PENGILLARIA

### A WONDERFUL NEW FODDER PLANT

"Pencilaria" the greatest of fodder plants. It is simply a twentieth century wonder and when cut and shocked it looks as if the shocks half covered the ground. It is the most productive hay and fodder plant in cultivation. This plant is worthy of the careful consideration of every progressive farmer, dairyman, stockman and poultryman in the country. This is a native of Central America and the tropics, but has been tried in this country to such an extent that it can be ranked as one of the most valuable plants that can be grown for fodder, hay or ensilage. It is a new fodder plant and it is creating a great sensation in its marvelous productiveness and wonderful qualities. It is an annual, producing a heavy growth of broad, dark green leaves, closely resembling common corn. It should be sown very thin as it stools out like wheat. It grows faster and taller than any fodder we ever saw and while we did not measure the yield it was enormous. Like Cane or Kaffir corn, it does not blow down and is not affected by dry weather. It can be cut several times like Alfalfa and there is no exaggeration in saying that five to fifteen tons per acre could easily be secured every year. Take our word for it and grow some and you will thank us for urging you. Do not plant until the ground is warm and one pound will plant an acre. Price—By mail, postpaid, ounce, 10c;  $\frac{1}{2}$  pound, 30c; 1 pound, 75c; write for prices on larger quantities.

### POULTRY SUPPLIES

Crushed Shell ..... 75c per 100 lbs. 300 to 500 lbs 65c

Moines, Iowa.

## WINTER WHEAT---Turkish Red Wheat

The very best variety of Winter Wheat in existence, and may be considered strictly iron clad, as it has proven invariably so here in the most exposed places every winter for sixteen years past. While it is a Winter Wheat, not sown until September, it will pay you to order now for shipment as soon as the new crop is harvested.

Prices are somewhat subject to market, as we sell this on a close margin, considering the extra care for seed cleaning and preparing for shipment. Send us your name now for our fall list of seeds. We will list same and take pleasure in mailing you a copy. It will save you money in buying Rye, Timothy, Fall Wheat and other fall seeds. Write for prices on wheat.

## Monster Rye

We consider Winter Rye one of the most important of all farm crops. In the first place it is a sure crop—failures being almost unknown. Every farmer should have at least a few acres of it. Our "Monster Rye" is of extra quality and we are sure it will please you no matter whether you want it for pasture or a grain crop. Price, bushel, \$1.00; 5 bushels or more, 90c; 10 bushels or more, 75c.

## Success Beardless Barley

Earliest barley known. The straw is about the height of common barley, but better, and will stand up on any land. With good land and season has produced 80 bushels per acre. Sow as early as you can, frost does not hurt it. Many farmers will not grow barley on account of the long harsh beards which are so disagreeable in threshing, although it is a profitable crop. This is beardless and as easy to grow and handle as oats. It has hulls like the Manshure or any other old variety, and is a heavy cropper, yielding from 50 to 75 bushels per acre and the quality is excellent both for maturing and for feeding hogs and other stock. Seed is scarce this year. Price, by freight, bushel, \$1.25; 2 bushels or more, \$1.20; 10 bushels or more, \$1.00. Bags free.

## Manshure Bearded Barley

This is an old well known six-rowed variety introduced by Professor Henry, of the Wisconsin Agricultural Experiment Station eleven or twelve years ago. It has been worth millions of dollars to the farmers in the barley growing states. It is a barley of wonderful productiveness and is not surpassed as a heavy yielder. The "Manshure Barley" yields in ordinary seasons 60 to 65 bushels per acre, and in favorable seasons has yielded as high as 80 bushels; figuring only 45 to 50 cents a bushel, it is one of the best paying crops. Price, 1 pound, 30c; 4 pounds, 75c, by mail. By freight or express, peck, 50c; 1 bushel, \$1.00; 10 bushels or more, 85c. Bags free.

# THE C. S. MARTINDALE COMMON SENSE GATE THE LIGHTEST AND STRONGEST GATE MADE

If price is guaranteed this gate will be laid down in any railroad town when two or more are ordered at a time.

Made any length or height to fit any and all places.

When ordering by mail be sure to give correct distance between posts.

Correspondence solicited

All questions cheerfully answered.

For the small sum of \$5.00 for a 10-12 foot gate; over 12-14 foot \$5 50. All gates are made  $4\frac{1}{2}$  feet high unless ordered. This gate will turn any animal on the farm. And is guaranteed for one year. Is well painted and well made of the best material to be had. **Is sold Pon Honor.** If broken by any stock will be replaced free of cost to purchaser. If you do not buy, you will always wish you had

Address all orders to

**C. S. MARTINDALE,**

One block west and north of Capitol

607 Penn Avenue

## Speltz

Another very successful season of Speltz growing in this part of the country has proven without a doubt the great value of this grain. Speltz is a new grain and looks more like barley than anything else, and we have placed it among the varieties of barley. It is somewhat between a wheat and barley, the grain somewhat similar to rye when the hull or husk is removed. It is a most wonderful grain and has been introduced extensively into this country during the past few years and has proven of great value. We have grown it here in this climate and the result has been entirely satisfactory. We believe it will outyield barley or oats, as it is hardier, and its feeding value is great. All who raised it enjoyed better returns than any other crop of small grain and it was easier to save during wet harvest. It is planted in early spring similar to wheat and oats, requiring about  $2\frac{1}{2}$  bushels per acre, 40 pounds per bushel. Price, 1 bushel lots, \$1.00, 2 bushels or more, 90c. Write for price in quantity.

# Where Shall I Go?

## To Mrs. West's Maternity Home

This new hospital just finished is the finest and best equipped home of its kind in the west. Everything is modern and up-to-date.

No finer place for unfortunate girls or married women, where they will have the best medical attention, good board and rooms.

Prices in reach of all. Work furnished to help pay expenses when needed.

Mrs. West is certainly a friend to the unfortunate.

Babies adopted in good Christian homes.

Take a Cab at the Depot for 1314 35th Street, Des Moines, Iowa

# CLIMBING CURRANT

THE GREATEST WONDER OF THE AGE

Photo of plant 5 years old.

14 feet high, 8 feet wide

Send us an order for one or two plants. Give them good care and cultivation and you will never regret it. We sent out several hundred plants last season and not one single complaint of poor plants or bad condition. We fully understand packing and will use care in same.

The greatest novelty in the world and the most reliable bearing currant known. You should try one or two of them. They are hardy outdoor plant. Price each 75 cents, 2 for \$1.25, prepaid.

# Beautiful Rugs
